Profile

Aspiring machine learning engineer with hands-on experience in building models for classification and NLP tasks. Proficient in Python, Scikit-Learn, and TensorFlow. Excited to solve real-world problems using data-driven approaches.

Education

- B.Sc. in Data Science, BINUS University (2020 – 2024)

Skills

- Python, Scikit-Learn, TensorFlow
- NLP, Classification, Regression
- Model evaluation and tuning

Experience

- ML Intern at Tokopedia (Feb 2024 – May 2024)
 - Built sentiment analysis model for product reviews
 - Used TF-IDF and Logistic Regression

Project

- Spam message classifier
- Image classification using CNN
